

Request for Use of ARI Facilities

This form may be used to request use of space in one or more of the Aquaculture Research Institute wet laboratories. Please provide the information requested below. Based upon the information provided, the ARI Wet Lab Manager can determine present and projected facility needs based upon accepted aquaculture methods and husbandry practices. He/she will contact you to discuss the availability of space and equipment and the special arrangements that may be required for your experiment.

User Contact Information

Principal Investigator: _____
Business address: _____
Phone: _____ E-mail address: _____

Project Title: _____
Start Date: _____ End Date: _____

Required Animals

Species/ strain: _____
Number of Fish Required: _____ Size (g): _____
Number of Experimental groups: _____ Number of Fish per group: _____
Source(s) of Research Animals: _____
(Disease-free certification must be presented before introducing animals into the facility.)

General Requirements

Photoperiod: _____
Temperature: _____
